\$15 includes dinner

Our major fundraiser of this year, the Women Helping Women Event provided an informative venue for us to learn more about the contributions and talents of our honorees; our own Mary Baldelli, Scissor Sisters, and Michelle Gannon. We learned more about these women and how they assist their communities and thank them for their presence in our society.

Two weeks prior to the event we had 34 attendees, a very poor response to our scholarship fundraiser. With the assistance of several members making phone calls and using other tactics, we ended up with 51 attendees. Ten of which were our honorees and guests. I am bringing this to your attention as the support of members for our events is important; knowing the economy, planned trips and vacations, personal commitments in other areas are factors in this low turn out, but support of our organization is vital to our continuing. We offered, if members could not attend, a way to support this event through a Journal ad or patron contribution; last being a \$10 donation. Some members placed their own ads, some members solicited donations and gift auction items which added to the income for our event. I want to extend our thanks to each and every one of you that participated in bringing your donations forward. Without your efforts the event would not have been successful.

As we look to the amount of scholarships we will be able to

Member Editorial by Lisa Gambino

Our monthly meeting for September was very interesting. The discussions are getting much more in depth and it is forcing us to think and try to resolve issues together as a team. We all have different opinions and suggestions, but that is what makes us women and all women so important.

From this meeting I learned that we are facing many issues that may or may not concern the state of our economy, individual involvement, changes to our business and/or personal lives and just the continuation of life itself. But, I also learned that I make my own choices pertaining to my own life and for me, Business and Professional Women has helped me immensely and continues to help me. It has helped me to communicate with all kinds of people from all walks of life. I still get a tad nervous in front of these people, but I am constantly working on improving and I still have a lot more improving to do. As I have heard from some members in the past, "they wish this kind of organization was available to them when they were younger," because it may have helped them to get through life's difficulties quicker. We can only take home what we feel is important to us and our lives, whether it is for business or personal and if this is the place to get that and to share it with others, than the chapter has accomplished what the State and/or Foundation organizations has offered to women. Basically, we are all here, (I feel) to help each other! I know this is what I want to do - is this what you want to do?

I look forward to next month and more discussions on the issues we women face each day professionally and personally.

Thanks Business and Professional Women of Southern Ocean County!
